

SHWETA NIGAM

Full-Stack Developer

+91-9267977153 | shwetanigam2106@gmail.com | shwetacodes.pro | github.com/shweta-nigam

SUMMARY

Full-Stack Developer with experience building scalable web and mobile applications using React.js, Node.js, and MongoDB. Skilled in developing responsive user interfaces, designing RESTful APIs, and implementing secure authentication systems. Strong foundation in performance optimization, clean architecture, and real-world project development.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL

Frontend: React.js, TailwindCSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, Authentication (JWT, OAuth)

Database: MongoDB, Prisma ORM

Tools & Platforms: Git, GitHub, Postman, Vercel, Render

Mobile: React Native (Expo)

PROJECTS

Proper-poll – Live polling application

Live: [proper-poll](#) | [GitHub: github.com/...](#)

- Built a full-stack real-time polling platform using React, TypeScript, Node.js, Express, and MongoDB with secure JWT and Google OAuth authentication.
- Developed dynamic poll creation, response collection, and analytics dashboards with interactive charts using Recharts and responsive UI using Tailwind CSS and Framer Motion.
- Implemented real-time poll interactions and live updates using Socket.IO, enabling instant response synchronization across connected users.
- Designed a scalable modular backend architecture with Express, Mongoose, and Zod validation featuring protected routes, standardized API handling, and reusable middleware utilities.

DragonRadarZ – Mobile Application (React Native)

[GitHub: github.com/...](#)

- Built cross-platform mobile application using React Native and Expo
 - Integrated external APIs to fetch and display dynamic content
 - Developed interactive UI with animations and smooth navigation
 - Implemented persistent state management for favorites feature
 - Optimized performance and handled asynchronous data efficiently
-

EXPERIENCE

Self-Employed | Full-Stack Projects

- Designed and developed multiple full-stack and mobile applications independently
 - Built responsive frontends and scalable backend systems
 - Implemented authentication systems and integrated third-party APIs
 - Applied clean code practices and modular architecture
-

EDUCATION

Bachelor's Degree in Commerce

University of Delhi
